INTERNATIONAL FANTASY RACING LEAGUE

GRAN TURISMO 7 · SPRING 2026

1. League & Team Structure

Welcome to the second season of the International Fantasy Racing League (IFRL). The Spring 2026 season introduces a refined format designed to elevate competition, ensure fairness, and maximize multi-class drama while minimizing administrative overhead. Building on the foundation of our inaugural season, this six-week league will feature 16 drivers across four teams, competing in a dynamic two-event weekly structure.

The league's philosophy remains centered on creating a fun, competitive, and low-maintenance environment where every driver plays a crucial role in their team's success. This season, we are eliminating the need for screenshot submissions and driver substitutions to streamline race nights.

1.1 Buy-In & Prize Pool

A buy-in of \$25 per racer creates a total prize pool of \$400, distributed as follows:

TEAM PRIZE

\$200

Split equally — \$50 each
among the 4 members of the winning team.

INDIVIDUAL PRIZE

\$200

1st: \$100 · 2nd: \$60 · 3rd: \$40

2. Season & Scoring Rules

A driver's final standing is determined by the sum of their top five weekly scores, allowing one lowest-scoring week to be dropped. This provides flexibility for drivers who may miss a race night.

ATTENDANCE POLICY

Miss 1 Week: Your lowest score (including a zero) will be dropped.

Miss 2 Weeks: Your single lowest score is duplicated as your 5th score.

3. Weekly Race Format

Each race week consists of two distinct events — a neutral Gr.3 race and a multi-class main event.

3.1 Event 1: Neutral Race (Gr.3)

- Vehicle Class: Gr.3. A single car is assigned each week — all 16 drivers race the same car.
- Performance Points (PP): 790 PP maximum.
- Tires: Driver's choice (no restriction).
- Format: 10-minute qualifying session, followed by a ~25-minute race.

Points awarded based on race finish position.

Week	Car
Week 1 — Spa	Audi R8 LMS Evo '19
Week 2 — Lago Maggiore	Ford GT LM Spec II (Race Car or Test Car — driver's choice)

Event 1 — Points Distribution (16 Drivers)

POS	PTS	POS	PTS
1st	100	9th	50
2nd	90	10th	45
3rd	80	11th	40
4th	75	12th	35
5th	70	13th	30
6th	65	14th	25
7th	60	15th	20
8th	55	16th	15

3.2 Class Division: Apex & Vortex

Drivers are split into two divisions per team — ensuring every team has two drivers in each class.

- Week 1: All 16 drivers submit their fastest lap at Spa. The four fastest become team captains, and balanced teams are built via snake draft. The top 2 on each team → Apex; bottom 2 → Vortex.
- Weeks 2–6: Division based on the prior week's Event 1 finish. Top 2 per team → Apex; bottom 2 → Vortex. This rolling system ensures class placement is always based on identical-machinery performance.

APEX DIVISION

Gr.1 Hypercars
890 PP maximum

- Porsche 919 Hybrid
- Audi R18 e-tron quattro
- Toyota GR010 Hybrid

- Lexus RC F GT500

Bottom 2 per team — Event 1 result

3.3 Event 2: Multi-Class Race (Le Mans Style)

- Race Length: ~30 minutes (e.g., 13 laps at Spa). Random weather to introduce strategic variability.
- Apex: Gr.1 Hypercars, 890 PP max. | Vortex: Gr.2, 850 PP max. | Tires: driver's choice.
- Bonus: +10 pts to any driver gaining 3+ positions within their class.
